Printing date 16.07.2012

Safety data sheet

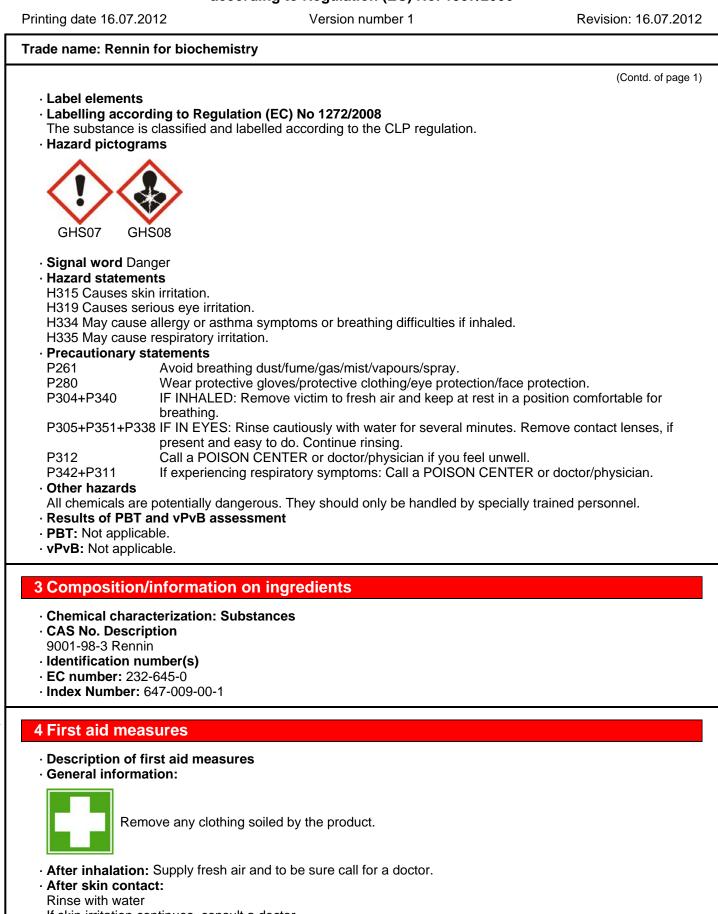

according to Regulation (EC) No. 1907/2006 Version number 1

Revision: 16.07.2012

1 Identification of the substance/mixture and of the company/undertaking · Product identifier · Trade name: Rennin for biochemistry · Article number: 8178 · CAS Number: 9001-98-3 · EC number: 232-645-0 · Index number: 647-009-00-1 Registration number A registration number is not available for this substance as the substance or its use are exempted from registration according to Article 2 REACH Regulation (EC) No 1907/2006, the annual tonnage does not require a registration or the registration is envisaged for a later registration deadline. · Relevant identified uses of the substance or mixture and uses advised against No further relevant information available. · Application of the substance / the preparation Laboratory chemical · Details of the supplier of the safety data sheet · Manufacturer/Supplier: Carl Roth GmbH + Co. KG Schoemperlenstraße 3-5 76185 Karlsruhe Germany Telefon: +49/(0)721 5606-0 Telefax: +49/(0)721 5606-149 E-Mail: sicherheit@carlroth.de · Further information obtainable from: Department Health, Safety and Environment · Emergency telephone number: Poison Centre Munich Telefon +49/(0)89 19240 2 Hazards identification Classification of the substance or mixture Classification according to Regulation (EC) No 1272/2008 GHS08 health hazard Resp. Sens. 1 H334 May cause allergy or asthma symptoms or breathing difficulties if inhaled. GHS07 Skin Irrit. 2 H315 Causes skin irritation. Eye Irrit. 2 H319 Causes serious eye irritation. STOT SE 3 H335 May cause respiratory irritation. · Classification according to Directive 67/548/EEC or Directive 1999/45/EC Xi; Irritant R36/37/38: Irritating to eyes, respiratory system and skin. Xn; Sensitising R42: May cause sensitisation by inhalation. (Contd. on page 2) GB

according to Regulation (EC) No. 1907/2006

If skin irritation continues, consult a doctor.

• After eye contact: Rinse opened eye for 10 minutes under running water. Then consult a doctor.

according to Regulation (EC) No. 1907/2006

Printing date 16.07.2012

Version number 1

Revision: 16.07.2012

(Contd. of page 3)

Trade name: Rennin for biochemistry

· Recommended storage temperature: +4 °C

• Specific end use(s) No further relevant information available.

8 Exposure controls/personal protection

- · Additional information about design of technical facilities: No further data; see item 7.
- · Control parameters
- · Ingredients with limit values that require monitoring at the workplace: Not required.
- · Additional information: The lists valid during the making were used as basis.
- · Exposure controls
- · Personal protective equipment:
- \cdot General protective and hygienic measures:
- Do not eat, drink, smoke or sniff while working. Do not breathe dust.

Keep away from foodstuffs, beverages and feed.

- Immediately remove all soiled and contaminated clothing.
- Wash hands before breaks and at the end of work.
- Avoid contact with the eyes and skin.
- Individual protection measures

Protective clothing needs to be selected specifically for the workplace, depending on concentrations and quantities of the hazardous substances handled. The chemical resistance of the protective equipment should be enquired at the respective supplier.

· Respiratory protection:

In case of brief exposure or low pollution use respiratory filter device. In case of intensive or longer exposure use self-contained respiratory protective device.

Required when dusts are generated.

· Protection of hands:

Due to missing tests no recommendation to the glove material can be given for the product.

Protective gloves

The glove material has to be impermeable and resistant to the product/ the substance/ the preparation.

Selection of the glove material on consideration of the penetration times, rates of diffusion and the degradation • Material of gloves

The selection of the suitable gloves does not only depend on the material, but also on further marks of quality and varies from manufacturer to manufacturer.

· Penetration time of glove material

The exact break through time has to be found out by the manufacturer of the protective gloves and has to be observed.

· Eye protection:

Tightly sealed goggles

· Body protection: Protective work clothing

Trade name: Rennin for biochemistry

(Contd. of page 4)

· Information on basic physical and	chemical properties
· General Information	
· Appearance:	
Form:	Powder
Colour: · Odour:	Light brown Characteristic
· Odour threshold:	Not determined.
· pH-value:	Not applicable.
 Change in condition Melting point/Melting range: 	Undetermined.
Boiling point/Boiling range:	Undetermined.
· Flash point:	Undetermined.
· Flammability (solid, gaseous):	Product is not flammable.
· Ignition temperature:	
Decomposition temperature:	Not determined.
· Self-igniting:	Not determined.
 Danger of explosion: 	Product does not present an explosion hazard.
· Explosion limits:	
Lower:	Not determined.
Upper:	Not determined.
· Vapour pressure:	Not applicable.
· Density:	Not determined.
· Relative density	Not determined.
· Vapour density	Not applicable.
 Evaporation rate 	Not applicable.
· Solubility in / Miscibility with	
water:	Undetermined.
· Partition coefficient (n-octanol/wat	er): Not determined.
· Viscosity:	
Dynamic:	Not applicable.
Kinematic:	Not applicable.
· Other information	No further relevant information available.

10 Stability and reactivity

· Reactivity

· Chemical stability

- · Thermal decomposition / conditions to be avoided:
- No decomposition if used and stored according to specifications.
- Possibility of hazardous reactions No information available.
- \cdot Conditions to avoid No further relevant information available.
- Incompatible materials: Strong oxidizing agents.
- Hazardous decomposition products:
- In the case of fire:

Trade name: Rennin for biochemistry

Carbon monoxide and carbon dioxide

11 Toxicological information

· Information on toxicological effects

- · Acute toxicity:
- · LD/LC50 values relevant for classification: Quantitative data on the toxicity of this product are not available.
- · Primary irritant effect:
- · on the skin: Irritant to skin and mucous membranes.
- · on the eye: Irritating effect.
- after inhalation: Irritations in the respiratory tract, coughing, dyspnoea.
- · Sensitization: Sensitization possible through inhalation.
- Further information: The product should be handled with the care usual when dealing with chemicals.
- · CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) No information available

12 Ecological information

- · Toxicity
- · Aquatic toxicity: Quantitative data on the ecological effect of this product are not available.
- Persistence and degradability No further relevant information available.
- · Behaviour in environmental systems:
- · Bioaccumulative potential No further relevant information available.
- · Mobility in soil No further relevant information available.
- · Ecotoxical effects:
- · Remark: Do not allow to enter waters, waste water, or soil!
- · Additional ecological information:
- · General notes: Do not allow product to reach ground water, water course or sewage system.
- · Results of PBT and vPvB assessment
- **PBT:** Not applicable.
- · vPvB: Not applicable.
- · Other adverse effects No further relevant information available.

13 Disposal considerations

Waste treatment methods

Recommendation

This material and its container must be disposed of as hazardous waste.

The disposal is regionally differently regulated, therefore the kind of disposal is to be inquired at the responsible authorities.

· Uncleaned packaging:

• Recommendation: Disposal according to official regulations.

· UN-Number · ADR, ADN, IMDG, IATA	Void	
· UN proper shipping name · ADR, ADN, IMDG, IATA	Void	
· Transport hazard class(es)		
· ADR, ADN, IMDG, IATA		
Class	Void

15 Regulatory information

- · Safety, health and environmental regulations/legislation specific for the substance or mixture
- · National regulations:
- · Information about limitation of use:

Employment restrictions concerning juveniles must be observed. In dealing with chemicals the national laws must be observed.

- · Waterhazard class: Generally not hazardous for water (German regulation).
- · Chemical safety assessment: A Chemical Safety Assessment has not been carried out.

16 Other information

This information is based on our present knowledge. However, this shall not constitute a guarantee for any specific product features and shall not establish a legally valid contractual relationship.

- · Department issuing MSDS: Department: Health, Safety and Environment
- · Contact: Herr Heine
